

New!

VAFX3™

Perfectly smooth, perfectly quiet...

Can large format scenic projection compete with digital projectors and moving lights? We say yes!

Shows like the Broadway and West End productions of *Mary Poppins*, *The Woman in White*, *Dirty Dancing*, *Oklahoma*, and *The Lord of the Rings* have all utilised VAFX technology to create visual images that were important to the productions.

The VAFX3 system combines a large format (18") disk with a bright light source, smooth slow speed, silent operation, and interchangeable lenses to produce stunning visual effects such as several types of clouds, flames, water, and rain and snow.

6.5 cm Lens #5401

15 cm Lens #5403

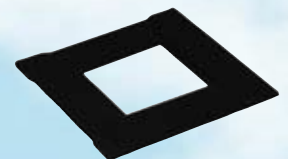

10 cm Lens #5402

Lens Adaptor for S4 Lens #5416 (S4 Lens not included)

S4 Par Light Baffle #5420

Adjustable Mask #5413

CityTheatrical developed the VAFX3 in partnership with White Light Ltd. The VAFX3 is a new version of the White Light VAFX system and it is compatible with the accessories for all previous versions of the VAFX and the Patt 252 effects.

VSF3™

...perfectly beautiful effects.

Features

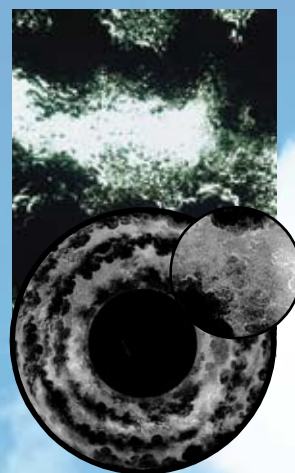

- Very slow (.02 RPM), very smooth, silent operation for perfect clouds or water
- Fast (3 RPM) operation for flames and other effects
- Large format (18") glass disk rotates in either direction
- Silent operation, no fans
- DMX control of speed and direction
- Stand alone mode allows local control of speed and direction
- Compatible with Juliat 325 LFX and ETC Source 4 Par MCM 575w (each fixture requires its own adaptor plate)
- Rotatable housing to align effects either vertically or horizontally
- Three different interchangeable lenses sizes: 6.5 cm (2.5"), 10 cm (4") or 15 cm (6")
- Art glass slot
- Dual front colour runners allow colour filters or masking shutters to be installed with lens
- VSF3 is compatible with older VSFX disks
