

**Quartz Banks are standard depth Banks designed to modify HMI PAR and Tungsten open faced lights up to 12,000 watts into a big, beautiful, broad source!**

CHIMERA's exclusive quality materials are built to withstand the rigors of high temperatures from lights up to 12,000 watts for hours at a time. Comes with a removable internal baffle for broad, even highlights. Used with Circular Rings which accommodate lights with front end sizes from 9 to 21.5 inches. (page 22)

The popular "Plus" series includes **full**, **half** and **quarter** density front diffusion screens. The "Plus 1" Lightbanks are equipped with one **full** diffusion screen. Both versions accept our complete line of Light Control Accessories on pages 26-27. They include Barn Doors, LightTools™ Soft Eggcrate™ Fabric Grids, Honeycomb Metal Grids, ColorCorrection Screens, and Bobbinette Scrims. Replacement Parts are on page 29.
