

## ACTOR B610 SERIES (Basic Version)

ACTOR B 610

ACTOR B 610 with MCBs P+N

The ACTOR B series is an economically priced professional series of dimmers manufactured with high quality components. The DMX address can be selected through the four push buttons mounted on the front panel. There is a display

indicating the correct or incorrect condition of the DMX input, three monitor LEDs for the power supply and one LED for each output. ACTOR B series is only DMX controlled.

### FEATURES

- Soft start adjustable per channel.
- Preheat level adjustable per channel.
- 3 Selectable Laws (curves) per channel: Linear, Incandescent, Switch.
- 12 Pre-programmed chases with capability of adjusting the speed and the intensity.
- Programmable behaviour on DMX signal interruption (blackout or hold of last DMX address).
- Soft power up for inrush current limiting when the power is switched on.
- MCBs P+N can be supplied in all ACTOR B series at additional cost.
- Suitable for controlling resistive or inductive loads, incandescent lamps and iron-core transformers to supply low voltage lamps.
- DMX signal buffer.

TECHNICAL SPECIFICATIONS	ACTOR B610
NUMBER OF CHANNELS	6
CHANNEL CAPACITY (WATTS at 230V)	2300
MAXIMUM CURRENT PER CHANNEL	10A
SUPPLY VOLTAGE	400/230V~3/N/PE/ 50Hz
DIMENSIONS IN MM (WxDxH):	482 x 88 x 340

*ACTOR B series is normally supplied with XLR 5-pin DMX IN/OUT, alternatively XLR 3-pin DMX IN/OUT can be supplied at no additional cost.*
